Good Afternoon Villagers and Friends of the
Village,

Please read the request below from Julie Anderson at LBK
Public Works. The Town is actively gathering information to
support their grant efforts for various flood prevention
projects. If you were affected by Tropical Storm Debby, have
observations about accumulation of water or street flooding,
or used barriers that prevented flooding, please send the
information requested to Charlie Mopps and Kalee Shaberts
at the email addresses specified below.

Thanks and have a great week,

LBVA Board of Directors

We hope this message finds you safe and well. The Town is currently gathering information related to flood damages from Hurricane Debby as part of our grant application efforts. If you were affected, we strongly urge you to share your experience with us. Without your documentation, critical projects to reduce future flooding on your street may not be possible.

Please assist us by answering the following questions:

1. How deep was the water in your house? None
2. How deep was it in your garage? None
3. How long was water over the road in front of your driveway? About 6-8 hours then it receded, probably due to tide and wind direction
4. If you used sandbags or a flood barrier, and water did not enter the house, how high was the water above the level of your floors? No water entered house
5. If water did not enter the house or garage, how close did it get, and how deep was it in the yard at the deepest point? The water entered our driveway, about 10-15 feet. The driveway gradually raises about 12"-18" above the street level.

Please send your responses, along with any supporting photos or documents, to Charlie Mopps at cmopps@longboatkey.org and Kalee Shaberts at kshaberts@longboatkey.org by 8/30/2024.

Thank you for your assistance.

Sincerely,
The Town of Longboat Key
