

Sleepy Lagoon - 60 % Plan Comments

Monday, August 4, 2025 2:35 PM

Charlie's comments

1. Utility Conflicts and avoidance. They only factor \$25k in adjustments
2. Does their model runs suggest this would help prevent flooding?
3. I can't tell what the road elevations would be from existing?

Jenn's comments

4. see plans and EOPCC for comments directly in file
5. Specifications are needed for this project.
6. Permit applications with the 90% submittal or now since we are at 60%?
7. Public Involvement - this need to happen now with website, private website, etc.
